Subject: Follow-up

Hi Gary,

Do you have a headcount for the meeting last night? I am pleased with the way the meeting went... I know we discussed my desire for more information, but I understand the delicate position that the EPA is in right now with the Superfund process. Could you please send me a copy of your presentation?

Tina Walker's worker safety follow-up is extremely concerning to me. Do you have experience with this from working with other Superfund Sites? I would like us all to put our heads together to work with the local facilities. I am cc'ing the County on this to see if they can be of assistance. Perhaps if a letter was sent from a government agency, the companies would take the information more seriously than if I solely approach them.

Also, the 3 or 400 plus individual letters headed your way are letters that we circulated and there are several more hundred to come but we will save you time with the remainder and send them in one package!

Thank you,
Jackie Young
